Before taking any remedy it is we! to look into its ingredients. If you know that a certain preparation contained a poison, such as strychnine, for instance, would you take it? Of course you wouldn't. Why, then, should you take a mixture, the clief ingredient of which is alcohol, a poison?

In claiming the attention of the public for Magoe's (Malt) Emulsion, the pro-prietors offer every hit of information regarding it that there is. It is made of pure Norwegian cod liver cil, syrupy, non-alcoholic, diastasic mult extract, bypophosphites of lime and soda and flav-ored with wintergreen. Nothing else ex-
